

Specification

04.02.22

Code No: EO03279 CAS No: 15133-82-1

Chemical Name: Tetrakis(triphenylphosphine)nickel(0)

Synonym: **Ni(PPh₃)₄, Nickel-tetrakis(triphenylphosphine)**

Molecular Formula: C₇₂H₆₀NiP₄

Molecular Weight: 1107.84

Product Properties:

Appearance: solid, light brown to copper or brown powder or crystalline powder
Purity method: by gravimetric assay
Assay (purity): min 98%
Gravimetric assay: %Ni=5.0-5.8 (with dimethylglyoxime)
Sensitivity: air, moisture

For available packaging options or alternative purify grades please contact us.
